International Association of Avian Trainers and Educators

Conservation Grant Application

IAATE conservation grants fund projects that support our mission of high quality, sustainable, in situ conservation projects that have a positive, measurable impact on avian species and their habitat. Applications for projects up to $5,000 are welcomed. Projects requesting more than $5,000 will be evaluated on a case-by-case basis.

Proposals will be evaluated on:
* The project's impact on avian conservation.
* Stated ability to measure the project's success.
* Sustainability of project through the assistance of IAATE funding and beyond.

Successful applicants will be required to provide a written report for the IAATE website and *The Flyer* within the grant year. In addition, grantees may be asked to provide a short project report at the annual conference. However, attendance at the Annual Conference is not required.

Application Information

Application Year and Date: _____

Project Title: _____

Principle Investigator: _____

IAATE Member Name (if different than Principal Investigator): _____

PI's Affiliation: _____

Address: _____

_____

Phone: _____

E mail: _____

Amount Requested: _____

Total Project Cost: _____

If the Principal Investigator has been granted IAATE Conservation Grant funds previously, please include the year and project title of the most recent grant:
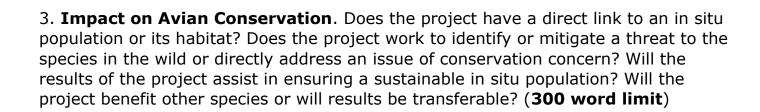

_____

Applications must be submitted by 11:59 PM EST on the due date listed on our website for this year. **Late applications will not be accepted.** All applications will be acknowledged by email within 24 hours of submission.

Please return completed application to:
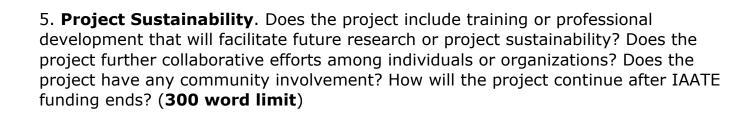

Gareth Morgan
IAATE Conservation Committee Chair
Email: birds@lionsafari.com

1. **Role of IAATE**. Provide a brief explanation of the role of the IAATE member in the project. (**100 word limit**)

2. **Project Summary and Proposed Goals**. Provide an overview of the project. Include a brief statement of goals, methods, outcomes and importance of the project. (**300 word limit**)

3. **Impact on Avian Conservation**. Does the project have a direct link to an in situ population or its habitat? Does the project work to identify or mitigate a threat to the species in the wild or directly address an issue of conservation concern? Will the results of the project assist in ensuring a sustainable in situ population? Will the project benefit other species or will results be transferable? (**300 word limit**)

4. **Success Measures**. Clearly state the project's objectives. Include a timeline, workplan, milestone goals and measures of success. Please describe the project partners' experience/qualifications or past work that will impact the ability to meet the project's objectives. (**200 word limit**)

5. **Project Sustainability**. Does the project include training or professional development that will facilitate future research or project sustainability? Does the project further collaborative efforts among individuals or organizations? Does the project have any community involvement? How will the project continue after IAATE funding ends? (**300 word limit**)

6. **Budget Description**: Provide a brief budget narrative, including how IAATE funds will be used. If the proposal is to fund an on-going project, pleas provide the previous funding sources. If partial funding is granted, will the project still be achievable? If "yes", how will the project be altered? (**200 word limit**)

7. **Budget**
